Transport Systems: DOT/DHS
Water: EPA

- Assigns DoD responsibilities
 - Internal
 - Defense Industrial Base
 - Interagency
- Identifies Defense Sector Lead Agents

USNORTHCOM Responsibilities

UNCLASSIFIED

Final Thoughts

- DOD, NORTHCOM has process to respond to problems with Critical Infrastructure, both DOD and in support of DHS for national CIP
- What is unique about potential of space weather is the geographic range
 - For a hurricane, NORTHCOM can focus its assessment of CIP issues and determine, what if any, responses need to be done prior to event, and what could be the consequence management if impact occurs
 - For space weather, we would ask this COI for help in the modeling effects on infrastructure
 - can your community provide more refined insight focus down out of the big list, and most likely nodes
 - More insights into the level, types of impacts
