

Federal Plan for Cooperative Support and **Outage Mitigation Among Operational Processing Centers (P14)**

**Spring 2017 WG/CSAB Meeting
(OFCM, Silver Spring, MD)
March 30, 2017**

**Ken Barnett
WG-CSAB Exe Sec**

COPC Action Item

COPC Action Item 2013-1.9: Review and update the Federal Plan for Cooperative Support and Backup Among Operational Processing Centers (FCM-P14-2012).

- OFCM has all the OPCs' submissions.
 - OFCM still needs to resolve a couple of issues.
 - Note the document name change to the Federal Plan for Cooperative Support and **Outage Mitigation** Among Operational Processing Centers (FCM-P14-2017)
 - A reference to a new annex will be added but that document will be updated independently from the P14 update process.
 - Annex 1 – Network Operations (NETOPS) Concept of Operations (CONOPS) for the Operational Processing Centers (OPC)
 - Possibly add another Annex for the OPC Outage Mitigation info?
CSAB recommends?
-
